Outcomes

Agile's strategic staffing efforts propelled our client to surpass post-divestiture objectives, establishing a resilient IT infrastructure

200+
Candidates Placed

PMO
Helped established a comprehensive Project Management Office (PMO), providing leadership and coordination

Billions
This client is now achieving greater revenue than their original parent company.

CHALLENGES

In the aftermath of a significant split from its parent company, our client, a prominent retailer, faced a monumental task: building an entire IT organization from the ground up within a tight timeframe. With resources limited due to the divestiture agreement, the pressure was on. Enter Agile, the catalyst behind our client's transformation. Over a span of two years, we strategically filled over 200 vital positions, covering a diverse range of roles critical to our client's operations.

From helping establishing a comprehensive Project Management Office (PMO) to sourcing experts in cloud computing, data analysis, and finance, Agile played a pivotal role in assembling a high-caliber team. Our contributions extended beyond mere staffing; we facilitated the integration of HR systems, provided support for organizational development initiatives, and aided in the implementation of essential technologies such as Workday.

The outcome? Our client not only navigated the challenges of separation but emerged stronger and more resilient. With Agile's support, they not only met but surpassed their post-divestiture objectives. We were there every step of the way, ensuring that crucial deadlines were met and leaders had the support they needed to succeed.

DIFFERENTIATORS

1 M/A Expertise
Agile specializes in guiding organizations through the complexities of mergers and acquisitions, ensuring seamless transitions and continued success.

2 Speed and Precision
We understand the importance of delivering top-tier talent promptly without compromising on quality. Our proven track record speaks for itself.

3 Trusted Partnership
Agile goes beyond traditional staffing services, offering strategic insights and support to our clients as true partners in their success.
